

2U 24 Slot Tape Library

The COMBACK TAU, with 24 tape slots, is one of the smaller libraries in the COMBACK TL series.

The TAU features a power supply and can accommodate two LTO-HH drives or one LTO-FH drive. It supports the LTO generations LTO 3 – LTO 9 and later.

The TAU is ideal for small data backup environments and branch offices.

Special features of the TAU

The TAU is a proven solution in the entry-level autoloader and tape library segment.

Current LTO generations, web management, and security features are naturally integrated into the TAU.

The TAU accommodates 24 slots and up to two LTO-HH drives in a 2U footprint.
